

WELCOME

Dyson Design is a boutique independent publisher that has been designing and manufacturing beautiful greeting cards for nearly 20 years.

Based in the English Midlands, all our products are art directed, printed and packed in the UK, and now we're delighted to be sourcing British-made paper for some of our cards.

We believe we have one of the most diverse selections of greeting cards of any publisher with designs reflecting our love of style and craftsmanship, vintage and heritage, flowers and wildlife, gentle humour and vibrant colour.

“Something a little bit different,”

as one of our customers puts it.

We would love to see you if you are visiting these trade shows this year:

ENVIRONMENT

We've always believed in reusing and recycling, and in 2023 we're redoubling our efforts to play our part in conserving our environment.

RECYCLABLE & COMPOSTABLE

We've worked hard to ensure that all the materials we use are fully recyclable or compostable. We even pack in reused boxes.

MANUFACTURED IN THE UK

All our cards, envelopes, cellobags and labels are manufactured in the UK as standard, which reduces transport emissions

FSC & PEFC ACCREDITED BOARD

Our cards are printed on FSC or PEFC accredited board as standard using vegetable inks. We never use environmentally damaging glitter, flitter, lamination or varnishes.

NAKED v CELLO BAGS

When it comes to individual card packaging, we now offer naked cards fastened with recyclable clasp labels. We know that clear packaging is still a better option in some environments (such as outdoor spinners or florist shops where the air is cool and moist)

so we're continuing to offer cellobags – but only compostable ones of course.

Just let us know which you prefer when you make your order.
